About Us

Pioneer Bricks is one of India's most modern and largest brick manufacturing plant. We follow the ISO 9001:2015 Quality Management and ISO 14001:2015 Environment Management system. Our market position is guided by the principles of innovation, environment and quality, making your success our number one goal.

Pioneer Bricks Pvt. Ltd. was incorporated in 1990 by Sqn. Ldr. S.S. Bajwa (Retd.) after a good tenure with the IAF. He along with the other Directors contributed their bit to society from serving in the Defence, to innovating brick technologies and also representing India in the field of Olympic Sports.

Pioneer Bricks' forte lies in its flexibility of working closely with Architect Requirements and offering customized project-specific products. Production capacities and inventories are sufficient to cater to projects of considerable magnitude.

Bricks and Veneers are a strong, durable, and popular choice for new home builders and renovators. Today, our brick manufacturing plant is among the most technologically advanced in the industry, utilizing automation and technology to completely transform every step of the brick manufacturing process.

Their timeless appeal has allowed it to remain desirable no matter what is currently in vogue. With different colours and shapes to entice individuality and personality, it blends perfectly with the designs, creating a look and feel that never grow old. Hence our bricks are preferred choice of Builders & Architects.

Our vast range of Terracotta bricks / Face bricks/ Veneers / Terrace tiles are used on building facades to meet all architectural and aesthetics needs.

* Please Note : Due to the inherent nature of clay, products will have minor variations in color & dimensions as well as minor chippings and cracks. Actual colours may be different from the picture shown here due to printing, lighting, photography and scanning of pictures. Antique products will have multiple firing tone effects. We recommend checking samples before purchasing.
